***Versatile Solutions For
Total Records Management***

Oblique® The One Filing Solution

Wouldn't it be great if one filing system could handle all your filing and records management needs: one indexing format from department to department, one versatile system for a variety of needs? If you agree, *Oblique* has the answer for you.

Oblique is the only system on the market today which can accommodate the full spectrum of your filing needs. The secret is our unique suspended compartment design and variety of sizes coupled with our easy-to-use Color-Keyed Indexing™ accessories and LabelPrintPlus™ software

The versatility of the *Oblique* system makes it a perfect solution for problems with general filing, forms storage, mailroom sorting, printout storage, vaults, restricted space environments and much more.

In departmental files, central files, or corporate information collections, *Oblique* is ideal for files, forms, invoices, reports, computer printouts and other hard-to-manage materials. With over thirty different sizes and styles to choose from, *Oblique* makes a compartment which exactly matches your needs.

Standard *Oblique* compartments, or the new *Oblique Shelf* system, are an ideal complement to static or mobile shelving units. *Oblique* is the system of choice for efficient records and hard copy filing and retrieval.

In the workstation, the *Oblique FastFile™* provides the perfect solution to personal filing efficiency. Our *Handifile™* and *Executive* compartments provide a superior solution for drawer files and roll-out shelves in lateral file cabinets.

The complete line of *Oblique* products and accessories can help you manage the sea of paper you face on a daily basis. Take a few minutes to check out our system and see if you don't agree that *Oblique* has the solution for today's records management concerns *throughout your organization.*

to mailrooms and mail carts...

to mobile or static shelving systems, Oblique has the answer!

Files can be transferred directly to *Oblique* without changing file folders

The *Oblique Shelf* prevents "slumping," is lightweight and allows fast access

Health Care

Oblique is the ideal solution to health care filing problems. From forms at the nurses station to incomplete charts to in-patient x-rays, we can help you manage your information and retrieve it quickly.

From department to department, *Oblique's* variety of configurations allows you to match our system to your specific requirements.

Direct File Transfer™

Running out of space? Too many obsolete, space-consuming file cabinets? *Oblique* can help.

Using Color-Keyed Indexing, top-tab file folders can be transferred from drawers *directly* into the *Oblique* system *without changing file folders*.

With *Oblique*, file conversions are quick and easy. You can merge files from different file systems *without re-folding*. With Direct File Transfer you save space and solve your file access problems for good!

Oblique is ideal for a variety of health care applications

Datastor™ puts computer printouts at your fingertips

Datastor™

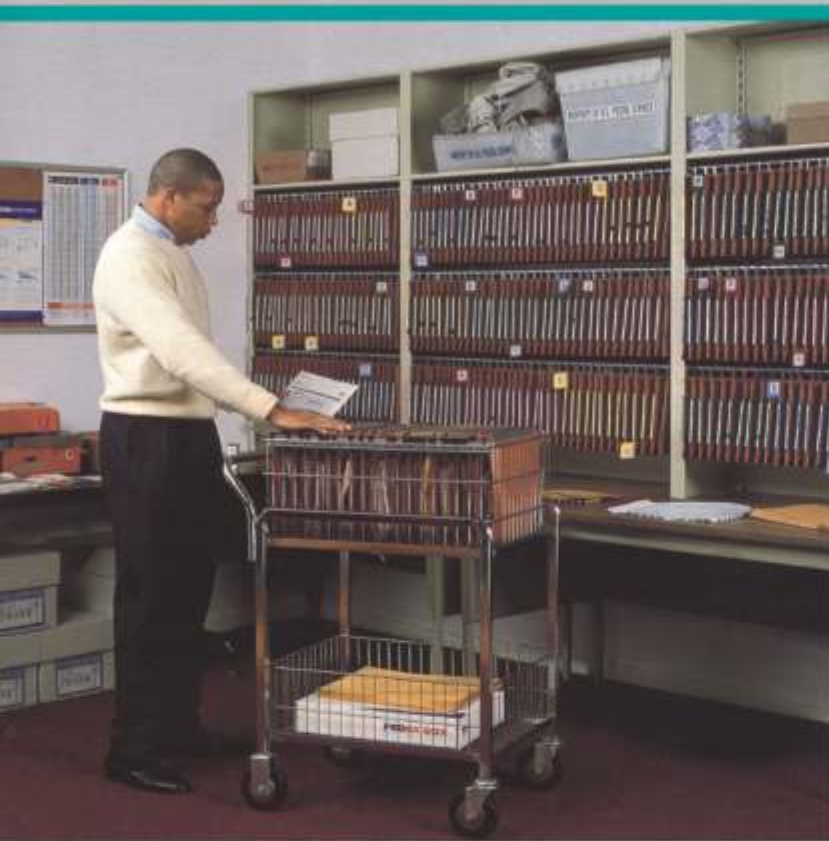

Datastor makes storing and retrieving valuable data simple. Each printout is assigned its own unique location which lets you know not only what's in the system, but also what isn't! Labels can be color-coded for easy printout identification. Because no expensive data binder is necessary, monthly maintenance of the system is reduced which results in a lower cost to you in labor, space and time!

Formstor®

Formstor provides the ultimate in forms inventory control. Using Color-Keyed Indexing and Guides, filing integrity can be maintained, speeding access and cutting labor by as much as 75 percent. You can efficiently file *five times as many forms* in the same floor space as basic shelving units.

Forms inventory control is simple and efficient

Oblique

Partments are the key to mailroom organization and efficiency

Mail Room™

Available with 1, 2 or 3-inch vertical bins, the Mail Room system saves space and increases mail handling efficiency. Addresses can be inserted or removed from the system to easily maintain your sorting integrity. Color-Keyed Indexing allows you to code names, departments or job functions for easy identification and faster sorting.

For Mailcarts, our extra deep Mailcart large compartments have magnified 11-inch indexes for easy reading and our linked design mean mail can't be lost between compartments!

Color-Keyed Indexing™

The key to efficient filing is indexing. *Oblique's* Color-Keyed Indexing™ system ensures fast finding and re-filing. Custom laser-printed labels, guides, and color accenting all work together to make finding materials quick and easy.

Choose from over thirty sizes and styles

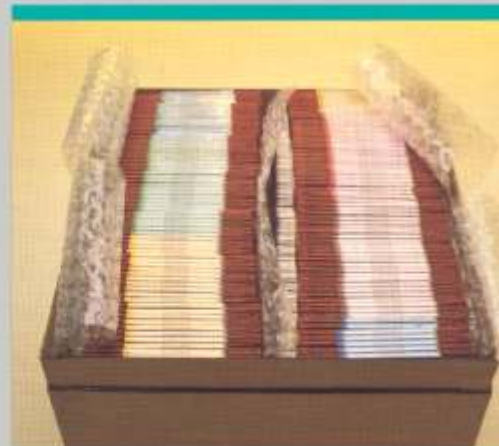

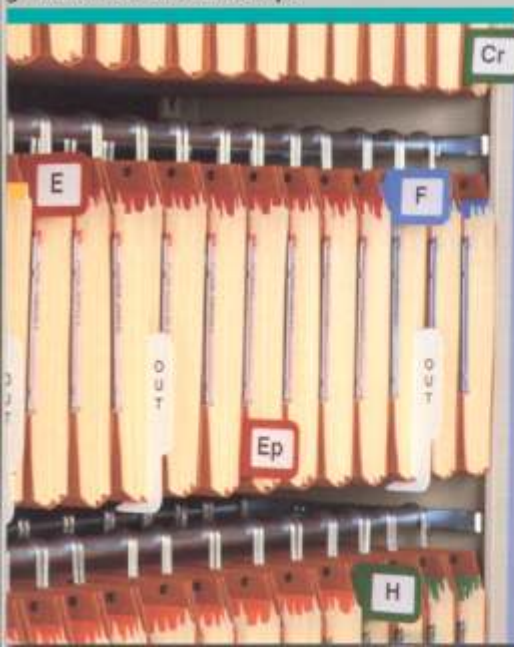

Compartments can be manufactured to your exact specifications

Custom Compartments

Oblique's durable compartments come in over 30 standard and styles. We also custom manufacture compartments with full-width or expandable bases, interior pockets, divider inserts or virtually any other you specify.

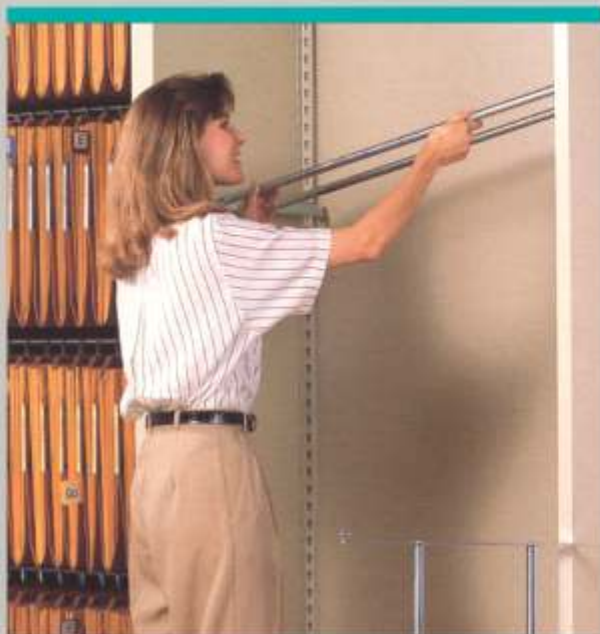

Oblique® makes file retrieval a snap!

Pre-labeled, pre-packed—Oblique is ready to install

Conversion Services

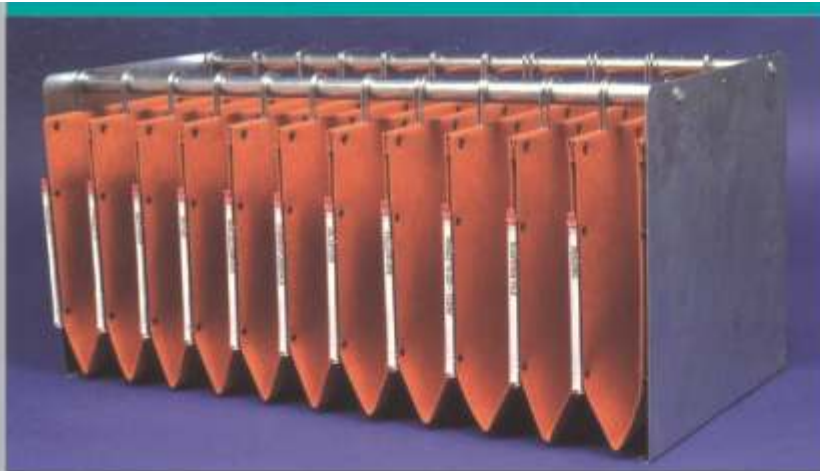

We custom print laser labels and guides to your specifications, insert index labels before packaging, and pre-snap and rebox compartments in sequence prior to shipping. Our goal is to make your transition to Oblique as easy as possible.

Oblique rail assemblies adapt to any situation

Retrofit

Oblique patented rail assemblies can be retrofit into practically any make of shelving or cabinet, saving equipment costs.

FastFile™ is ideal for workstation spaces

FastFile™

FastFile is a new idea in workstation filing, combining all the advantages of the *Oblique* system in a small, inexpensive package. The FastFile can double your personal efficiency by placing all your personal information in one easy-to-use place. With five models to choose from, the FastFile is perfect for your desktop, partition shelf, or binder bin space.

Executive Compartments

Executive Compartments provide the best solution to your drawer and lateral roll-out filing problems. Durable Executives have a magnified 11-inch label for easy reading. The linked design ensures nothing is lost between files. Our larger capacity also means fewer are required to hold your files, thus lowering your costs.

Executive compartments, simply the best

Oblique's Handi-File™

for business on the move

Handi-File™

Oblique's Handi-File is the perfect solution for "business on the move." File sales literature, customer files, or other materials...and take them with you! Handi-File is built to last and comes equipped with *Oblique* Executive compartments for easy file indexing and control.
